

SELF

Understand the meaning behind sharing your personal stories

US

Understand how your lived experiences inform how you connect with others

NOW

Understand how through their stories, they can connect a community to mobilise itself around a call to action.

The MYSTORY framework was developed for people who want to build trust & relationships to create meaningful impact.

Specifically, it will assist both individuals and groups to:

- Understand the mechanics of sharing personal stories and responding to stories shared;
- Get to understand responding to stories;
- Connecting with others- heart to heart;
- How a community of committed people can develop campaigns to positively impact one another and take action.

"I'm asking everyone in the country to be kind. The virus is the problem, not the people. People are the solution. Be part of the solution."

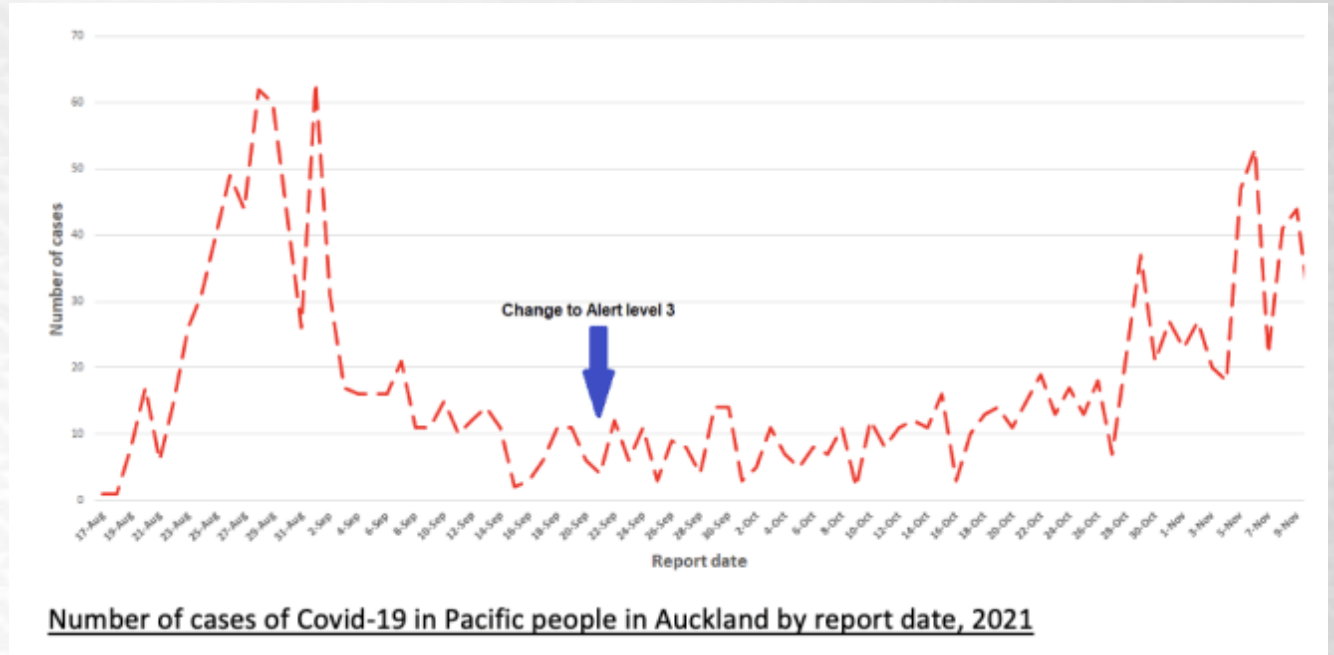

1st - 4th October - Vodafone Event Centre

Number of cases of Covid-19 in Pacific people in Auckland by report date, 2021

Vision: Excellent Health and Well-being
for Pacific and All Communities

We are a village that are working together for the benefit whanau, informed by whanau voice.

Integrated Services

- We are purposefully agile
- We believe every door is the right door
- We connect families to holistic services through our community first approach
- We help people navigate the complexities of the system through 'MYSTORY'
- Our approach is Pacific led, serving all communities

Partnership

- We are recognised for our collaborative approach and nature
- Our networks and partnerships have grown from strength to strength
- We have fostered an environment of mutual accountability, co-delivering services together

Delivering Results

- Our model is tried, tested and set up for continuous improvement
- Our data has matured to provide greater insights

Community

- We are trusted by the community
- We are powered by community voice
- Our COVID-19 response has proven a community first approach works

Our People

- We have built a culturally competent team with deep community connections
- We are an ecosystem of linked services
- Our internal processes and systems are strengthening

Leadership

- We are growing into a strong intermediary between the community and funders
- We sail uncharted waters for the benefit of our community
